This questionnaire has been developed to assist the City of Oshawa in identifying development applications on sites that may be contaminated as a result of a previous use or activity. The Ministry of the Environment, Conservation and Parks (MECP) has developed a "Guideline for Use at Contaminated Sites in Ontario (February 1997)" that outlines the process recommended for the restoration and clean-up of contaminated sites. Applicants on sites that may be contaminated will be required to demonstrate to the satisfaction of the City that they have addressed this Guideline.

This questionnaire is not required to be completed if a Phase 1 or Phase 2 Environmental Site Assessment (ESA), Remedial Work Plan (RWP) or Record of Site Condition (RSC) in accordance with the MECP's Guideline has been provided to the City of Oshawa.

Does this development proposal require a change in property use that is prescribed under the Environmental Protection Act and O.Reg. 153/04 (e.g. a change to a more sensitive use from Category 1 to 2; 2 to 3; or 1 to 3 as identified above)?		
If yes, a Record of Site Condition must be filed on the Provincial Environmental Site Registry.		
Has the property or any adjacent lands ever been used as an Enhanced Investigation Property (e.g. industrial uses; chemical warehousing; automotive repair garage; bulk liquid dispensing facility, including a gasoline outlet and/or a dry-cleaning equipment)?		
Has fill (earth materials used to fill in holes) ever been placed on the property?		
Is the property or any adjacent lands identified as a wellhead protection zone?
